

OZAN GÜNEYLİ

AI Engineer | Machine Learning Engineer | Python

İstanbul / Ataşehir

ozanguneyli@outlook.com | [linkedin.com/in/ozanguneyli](https://www.linkedin.com/in/ozanguneyli) | github.com/ozanguneyli | [Portfolio](#)

Summary

Computer Engineering graduate with hands-on experience in machine learning, computer vision, NLP, LLMs, and Retrieval-Augmented Generation (RAG). Experienced in developing machine learning models and contributing to AI-powered systems involving real-time object detection and tracking, semantic search, question answering, and predictive modeling. Proficient in Python with hands-on experience in deep learning, computer vision, RAG-based systems, semantic search, and AI application development.

Technical Skills

Programming: Python, SQL, Java, R, C#

Machine Learning: Scikit-Learn, TensorFlow, PyTorch, Keras, Deep Learning

Data Analysis: Pandas, NumPy, Matplotlib, Data Cleaning, Feature Engineering

AI / NLP / Computer Vision: NLP, LLMs, RAG, Image Processing, Object Detection

Tools & Frameworks: FastAPI, Vue3, Git, Docker, Qdrant, Redis, S3, SQLAlchemy, Alembic, Pydantic

Experience

Intern - AI Model Development | Etiya

07/2024 - 08/2024

- Developed sentiment analysis and maintenance/churn prediction models using Qdrant and Python.
- Packaged the models as a reusable Python library.

AI Engineer | Genarion

01/2025 - 03/2025

- Implemented real-time object detection and tracking using YOLO, Faster R-CNN, Detectron2, DeepSORT, and ByteTrack.
- Developed depth and 3D position estimation pipelines using computer vision techniques and Kalman filtering.

Intern - Full Stack AI Engineer | Etiya

08/2025 - 09/2025

- Contributed to the development of an agentic RAG-based CV analysis platform.
- Developed an AI system with scalable semantic search and question-answering capabilities using FastAPI, Vue3, Redis, Qdrant, and S3.

Team Captain - Artificial Intelligence in Health | Teknofest

10/2023 - 09/2025

- Led an AI team working on projects involving image processing, NLP, and machine learning.
- Coordinated technical development and contributed to implementing AI-based solutions.

EDUCATION

Kırıkkale University | Bachelor's Degree, Computer Engineering

09/2021- 08/2026
